

VigorSwitch G2100

L2+ Managed Switch

Quick Start Guide

Version: 1.2

Firmware Version: V2.6.8

(For future update, please visit DrayTek web site)

Date: March 31, 2022

1. Package Content

VigorSwitch G2100

Quick Start Guide

Rack Mount Kit (brackets)

Console Cable

The type of the power cord depends on the country that the switch will be installed.

UK-type Power Cord

EU-type Power Cord

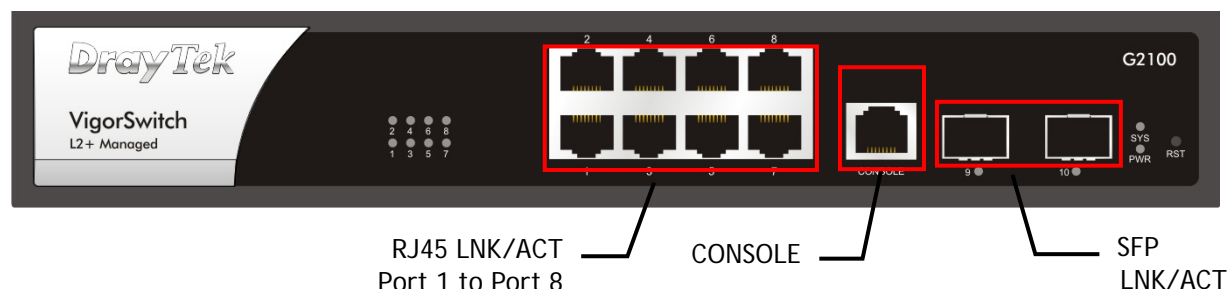

USA/Taiwan-type Power Cord

AU/NZ-type Power Cord

If any of these items is found missing or damaged, please contact your local supplier for replacement.

2. Panel Explanation

LED	Status	Explanation
RJ 45 LNK/ACT Port 1 ~ 8	On (Green)	The device is connected with 1000Mbps.
	On (Amber)	The device is connected with 10/100Mbps.
	Blinking	The system is sending or receiving data through the port.
	Off	The port is disconnected or the link is failed.
Port 9 ~ 10 SFP LNK/ACT	On (Green)	The device is connected with 1000Mbps.
	On (Amber)	The device is connected with 10/100Mbps.
	Blinking	The system is sending or receiving data through the port.
	Off	The port is disconnected or the link is failed.
SYS	On (Green)	The switch finishes system booting and the system is ready.
	Blinking (Green)	The switch is powered on and starts system booting.
	Off	The power is off or the system is not ready / malfunctioning.
PWR	On	The device is powered on.
	Off	The device is powered off.

Interface	Description
RJ 45 LNK/ACT Port 1 ~ 8	Port 1 to Port 8 can be used for Ethernet connection.
Console	Used to perform telnet command control.
SFP LNK/ACT Port 9 ~ 10	Port 9 to Port 10 are used for fiber connection.
RST	Factory reset button. <ul style="list-style-type: none"> ● Press it to reboot the system. (<5 seconds) The SYS LED will blink too. ● Press it to reset the system with factory default settings. (5~20 seconds) The SYS LED will be off if RST button is pressed between 5 seconds and 10 seconds.
	Power inlet for AC input (100~240V/AC, 50/60Hz).

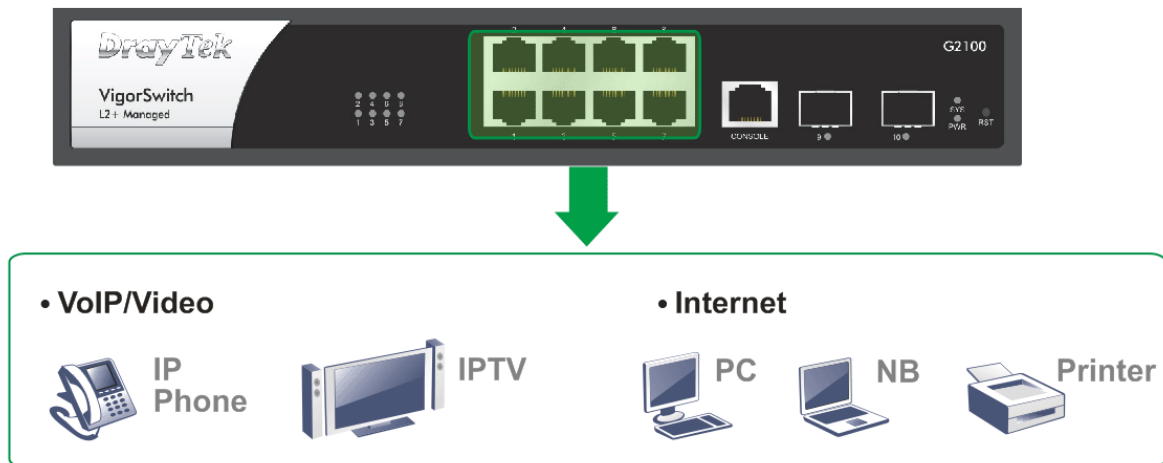

3. Hardware Installation

3.1 Network Connection

Before starting to configure the device, you have to connect your devices correctly.

A hierarchical network with minimum levels of devices may reduce the timing delay between server and client station. Basically, this approach will minimize the number of devices in any one path; will lower the possibility of network loop, and will improve network efficiency. If more than two devices are connected in the same network, select one device as a Level 1 device and connect all other devices to it at Level 2. Server/Host is recommended to connect to the Level 1 device. This is generally if no VLAN or other special requirements are applied.

All device ports are in the same local area network.

3.2 Rack-Mounted Installation

The switch can be installed easily by using rack mount kit.

1. Fasten the rack mount kit on both sides of the VigorSwitch using specific screws.
2. Then, install the VigorSwitch (with rack mount kit) on the 19-inch chassis by using other four screws.

4. Software Configuration

VigorSwitch, for example:
IP Address: 192.168.1.224
Subnet Mask: 255.255.255.0
Default Gateway: 192.168.1.254

Assign a reasonable IP address, for example:
IP Address: 192.168.1.100
Subnet Mask: 255.255.255.0
Default Gateway: 192.168.1.254

Ethernet LAN

Before using the switch, perform the following steps:

1. Set up a physical path between the configured the switch and a PC by a qualified UTP Cat. 5e cable with RJ-45 connector.

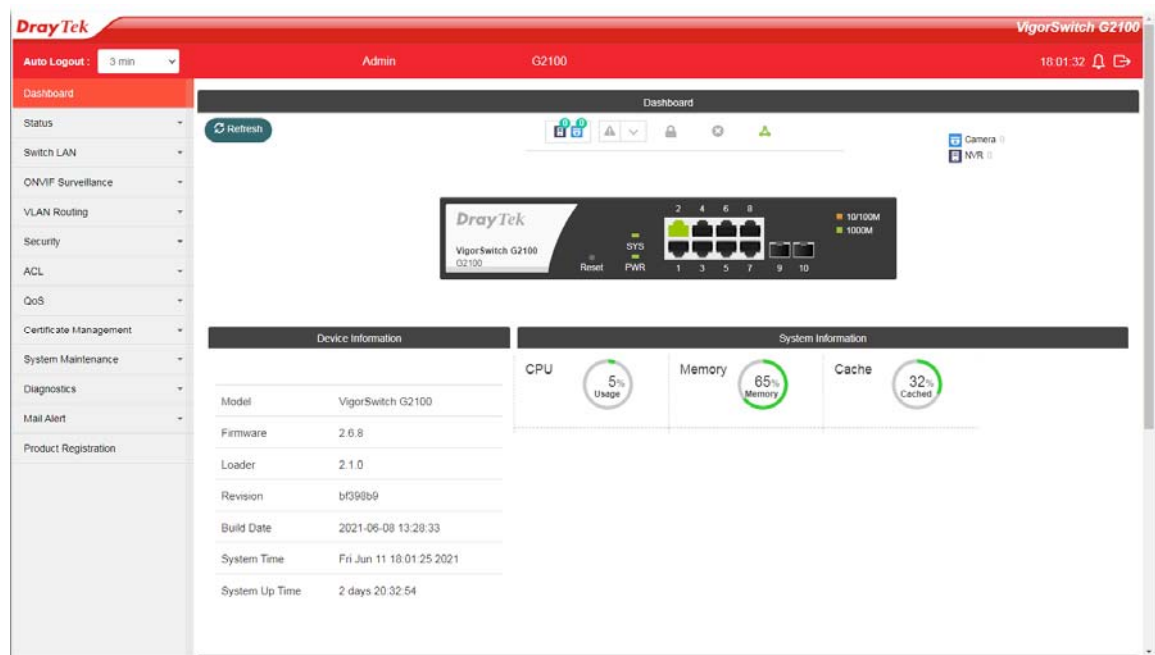

If a PC directly connects to the switch, you have to setup the same subnet mask for PC and the switch. Default values of the managed switch are listed as follows:

IP Address	192.168.1.224
Subnet Mask	255.255.255.0
DHCP Client	Enabled (On)
Username	admin
Password	admin

2. After configuring correct IP address on your PC, open your web browser and access switch's IP address.

A screenshot of the DrayTek VigorSwitch G2100 web interface login page. The header shows the 'DrayTek' logo and 'VigorSwitch G2100'. Below the header, there is a 'Login' section with two input fields: 'User' with the text 'admin' and 'Password' with masked characters '*****'. A 'Login' button is located at the bottom right of the login section.

The home page of VigorSwitch will be shown as below:

Customer Service

If the switch cannot work correctly after trying many efforts, please contact your dealer for further help right away. For any questions, please feel free to send e-mail to support@draytek.com.

Firmware & Tools Updates

Due to the continuous evolution of DrayTek technology, all switches will be regularly upgraded. Please consult the DrayTek web site for more information on newest firmware, tools and documents. <https://www.draytek.com>

EU Declaration of Conformity

We DrayTek Corp., office at No.26, Fu Shing Road, HuKou County, Hsin-Chu Industry Park, Hsinchu 303, Taiwan, R.O.C., declare under our sole responsibility that the product

- **Product name:** 8+2 Gigabit Switch
- **Model number:** VigorSwitch G2100
- **Manufacturer:** DrayTek Corp.
- **Address:** No.26, Fu Shing Road, HuKou County, Hsin-Chu Industry Park, Hsinchu 303, Taiwan.

is in conformity with the relevant Union harmonisation legislation:

EMC Directive 2014/30/EU, Low Voltage Directive 2014/35/EU and RoHS 2011/65/EU with reference to the following standards

Standard	Version / Issue date
EN 55032	2012+AC:2013 class A
EN 61000-3-2	2014 Class A
EN 61000-3-3	2013
EN 55035	2017

Trademarks

The following trademarks are used in this document:

- Microsoft is a registered trademark of Microsoft Corp.
- Windows, Windows 8, 10 and Explorer are trademarks of Microsoft Corp.
- Apple and Mac OS are registered trademarks of Apple Inc.
- Other products may be trademarks or registered trademarks of their respective manufacturers.

Safety Instructions

- Read the installation guide thoroughly before you set up the switch.
- The switch is a complicated electronic unit that may be repaired only by authorized and qualified personnel. Do not try to open or repair the switch yourself.
- Do not place the switch in a damp or humid place, e.g. a bathroom.
- Do not stack the switches.
- The switch should be used in a sheltered area, within a temperature range of 0 to +45 Celsius.
- Do not expose the switch to direct sunlight or other heat sources. The housing and electronic components may be damaged by direct sunlight or heat sources.
- Do not deploy the cable for LAN connection outdoor to prevent electronic shock hazards.
- Keep the package out of reach of children.
- When you want to dispose of the switch, please follow local regulations on conservation of the environment.

Warranty

We warrant to the original end user (purchaser) that the switch will be free from any defects in workmanship or materials for a period of two (2) years from the date of purchase from the dealer. Please keep your purchase receipt in a safe place as it serves as proof of date of purchase. During the warranty period, and upon proof of purchase, should the product have indications of failure due to faulty workmanship and/or materials, we will, at our discretion, repair or replace the defective products or components, without charge for either parts or labor, to whatever extent we deem necessary to restore the product to proper operating condition. Any replacement will consist of a new or re-manufactured functionally equivalent product of equal value, and will be offered solely at our discretion. This warranty will not apply if the product is modified, misused, tampered with, damaged by an act of God, or subjected to abnormal working conditions. The warranty does not cover the bundled or licensed software of other vendors. Defects which do not significantly affect the usability of the product will not be covered by the warranty. We reserve the right to revise the manual and online documentation and to make changes from time to time in the contents hereof without obligation to notify any person of such revision or changes.

Regulatory Information

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device may accept any interference received, including interference that may cause undesired operation.
